ITEM 2.02 RESULTS OF OPERATIONS AND FINANCIAL CONDITION.

The following information is being furnished under Item 2.02 -- Results of Operations and Financial Condition.

On April 13, 2007, Las Vegas Sands Corp. (the "Company") issued a press release announcing certain financial information for its Las Vegas operations for the quarterly period ended March 31, 2007. The press release is attached as Exhibit 99.1 to this report and is incorporated by reference into this item.

Within the Company's press release, the Company makes reference to certain non-GAAP financial measures including "adjusted EBITDA" and "adjusted property EBITDAR", which have directly comparable GAAP financial measures. The Company believes that these measures represent important internal measures of performance. Accordingly, where these non-GAAP measures are provided, it is done so that investors have the same financial data that management uses in evaluating performance with the belief that it will assist the investment community in properly assessing the underlying performance of the Company on a year-over-year and a quarter sequential basis. Whenever such information is presented, the Company has complied with the provisions of the rules under Regulation G and Item 2.02 of Form 8-K. The specific reasons, in addition to the reasons described above, why the Company's management believes that the presentation of the non-GAAP financial measures provides useful information to investors regarding the Company's financial condition, results of operations and cash flows are as follows:

Adjusted property EBITDAR and adjusted EBITDA are supplemental non-GAAP financial measures used by management, as well as industry analysts, to evaluate operations and operating performance. In particular, management utilizes adjusted property EBITDAR to compare the operating profitability of its casinos with those of its competitors, as well as for determining certain incentive compensation. In arriving at adjusted property EBITDAR, rental expense is added to adjusted EBITDA because the Company leases its HVAC plant and believes this provides a better comparison of operating profitability to Las Vegas competitors that own their HVAC plants. The Company is also presenting adjusted property EBITDAR because it is used by some investors as a way to measure a company's ability to incur and service debt, make capital expenditures and meet working capital requirements. Gaming companies have historically reported EBITDAR as a supplemental performance measure to GAAP financial measures. In order to view the operations of their casinos on a more stand-alone basis, gaming companies, including Las Vegas Sands Corp., have historically excluded certain expenses that do not relate to the management of specific casino properties, such as pre-opening expense, development expense, and corporate expense, from their EBITDAR calculations. When evaluating adjusted property EBITDAR, investors should consider, among other factors, (1) increasing or decreasing trends in adjusted property EBITDAR and (2) how adjusted property EBITDAR compares to levels of debt and interest expense. However, adjusted property EBITDAR should not be interpreted as an alternative to income from operations (as an indicator of operating performance) or to cash flows from operations (as a measure of liquidity), in each case, as determined

in accordance with generally accepted accounting principles. The Company has

## Edgar Filing: LAS VEGAS SANDS CORP - Form 8-K

significant uses of cash flow, including capital expenditures, interest payments and debt principal repayments, which are not reflected in adjusted property EBITDAR. Not all companies calculate EBITDAR in the same manner. As a result, adjusted property EBITDAR as presented by Las Vegas Sands Corp. may not be directly comparable to similarly titled measures presented by other companies. Adjusted property EBITDAR consists of adjusted EBITDAR for a particular property, such as The Venetian in Las Vegas. Accordingly, the measures are presented so that investors have the same financial data that management uses in evaluating performance with the belief that it will assist the investment community in properly assessing the underlying performance of the Company on a year-over-year and a quarter sequential basis.

Within the press release, the Company also referred to its provision for bad debt of approximately \$16 million in the 2007 first quarter, which included approximately \$10 million related to a single premium customer. This \$10 million provision fully covers the Company's exposure to this customer.

### ITEM 7.01 REGULATION FD DISCLOSURE.

The Company also announced that it intends to begin the marketing and syndication of a \$5 billion domestic credit facility, the proceeds of which are planned to be used to refinance its existing domestic credit facilities, to provide funding for current and future capital needs and for general corporate purposes.

The information in this Item 7.01 shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934.

### ITEM 9.01 FINANCIAL STATEMENTS AND EXHIBITS.

(d) Exhibits.
